**! IMPORTANT**

Effective July 1st, 2024, there will be an increase in the customer fee on your monthly natural gas bill. This adjustment will enable ORUD to reinvest in our natural gas infrastructure, ensuring that we maintain the highest standards of service for both you and our future customers!

# KEEP YOUR GAS METER CLEAR

From summer to winter, keeping your gas meter clear can help. Whether it is by clearing away branches or breaking off icicles, there are different steps you can take to guarantee your meter is always clear and you have a safe path to the meter for service visits, safety inspections and emergency situations.

*Do not tie anything to or cover your meter.*

*Clear away any broken tree limbs or branches*

*Do not bury your meter with mulch or decorative rocks.*

*Trim tall grass, weeds and bushes that have grown around the gas meter.*

*As leaves begin to fall, remove them from around the gas meter, as well as the gas exhaust and air intakes.*

*Carefully use your hand, a brush, or a broom to remove ice and snow that may have fallen during storms. **Do not use a shovel to do this!***

*Do not use sharp objects, salt, ice melting chemicals or hot water to remove snow and ice.*
