- 26** Memorial Day - Offices Closed 

JUNE

- 11** Team Training - Offices Opening Late 
- 15** Father's Day 
- 19** Juneteenth

ANNUAL LEAK SURVEY

It is that time of year again! Time for ORUD Natural Gas' annual leak survey. As part of our commitment to safety, ORUD technicians will be working in neighborhoods during the next few months conducting its annual leakage control survey on the underground natural gas pipelines. This leak survey is done annually on 1/5 of the overall distribution system and at all schools, churches and business districts as required by the U.S. Department of Transportation. Although most leaks found are very minor, our job is to be proactive in searching out and repairing any leaks before they become a hazard!

NATIONAL SAFE DIGGING MONTH

Federal Tax Credits

Water Heater Incentives

Effective Dates 1/1/2023 - 12/31/2032

With the expansion of 25C in 2023, a maximum of \$1,200 will be available for most taxpayers under the Energy Efficient Home Improvement Tax Credit (under the Inflation Reduction Act of 2022).

Any qualifying energy property item (including tankless water heaters and boilers) is eligible for a \$600 credit, and biomass stoves, water heaters, and/or heat pumps powered by propane or natural gas are also eligible for a \$2,000 credit. With the expanded 25C tax credit, the same customer would be eligible for credit for qualifying energy efficient upgrades on an annual basis (rather than a lifetime limit). The program will be extended to 2032 as a result of this expansion.

DID YOU KNOW?

Natural gas customers save an average of 63% in Tennessee.

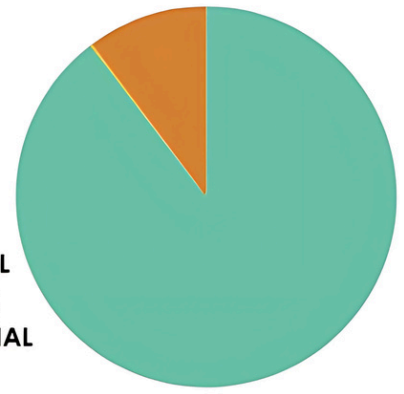

Natural gas costs an average of \$366 vs. electricity which costs an average of \$1,000 per year.
